APPENDIX II

MATLAB® and Simulink Toolboxes

In addition to the many functions included in MATLAB, there are additional Toolboxes that can be added. These toolboxes have groups of related functions that can be used for more advanced computations and data processing. The MathWorks, Inc. also has a family of simulation software called Simulink; it too, can be augmented with additional Toolboxes. For more detailed information, see the website www.mathworks.com.

Some of the more common Toolboxes include functions for advanced image processing, control system design, signal processing, curve fitting, parallel computing, and optimization.

Here is a list of some of these Toolboxes:

Symbolic Math Toolbox (some used in this text)
Statistics Toolbox (mentioned in this text)
Curve Fitting Toolbox
Optimization Toolbox
Partial Differential Equation Toolbox
Image Processing Toolbox
Image Acquisition Toolbox
Data Acquisition Toolbox
Instrument Control Toolbox
Signal Processing Toolbox
Control System Toolbox
Parallel Computing Toolbox
Aerospace Toolbox
Neural Network Toolbox
